Commissioner Griffith stated that he had a position paper that he would like to have considered and read it outloud, a copy is attached. The last paragraph in Commissioner Griffith's position paper reads, "In view of this position, I would support a motion to reject the letter of May 6, 1989 and continue with the recessed Planning meeting."

Chief Hatcher submitted his response to the May 6, 1989 letter to the Board and read it outloud, a copy is attached.

Commissioner Griffith stated that if the Board was not going to make any decisions he would suggest that the meeting be adjourned, that the Chief has given the Board his answer and that is what the meeting was for.
